9280 and 10019 Honda Civic Mount Identification

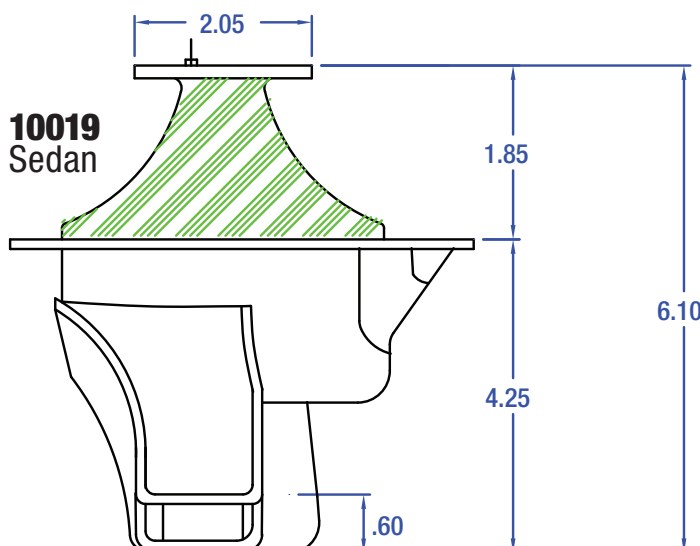

We receive tech calls regarding the right front engine mount on 2006-2011 Honda Civic applications. The right front mount for the two different body styles of this vehicle look very similar, but upon closer inspection there are differences (illustrated below) which will cause mounting issues if the wrong part is installed. Except for the right front mount, all of the other engine mounts for the 2006 - 2011 Honda Civic are the same.

In order to identify the proper mount for 2006-2011 Honda Civic applications, make sure to verify if the vehicle is a "Coupe" or "Sedan", as they require different part numbers. Detailed illustrations on the 9280 and 10019 engine mounts with dimension specifications are shown below.

Honda Civic, 2 Door Coupe Application Details

Part No.	Years	Engine	Location
9280	2006-2011	L4-1.8 Liter	Right Front Engine Mount

Honda Civic, 4 Door Sedan Application Details

Part No.	Years	Engine	Location
10019	2006-2011	L4-1.8 Liter	Right Front Engine Mount
